2025-26 UPPER DECK ICE

INTRODUCTION TO THE REIMAGINED UPPER DECK ICE!

Upper Deck Ice has been stripped down to the studs and rebuilt as a premium, Hobby-exclusive one-pack-per-box product! Popular product staples such as **Ice Premieres**, **Sub Zero**, **Glacial Graphs** and **Signature Swatches** return with a new construction, and some spectacular new sets have been added. Additionally, all autograph cards remain hard-signed!

Every card in the 2025-26 edition is at least 60 pts. thick and features a premium tech build or a solely tech substrate. Here are some highlights of the product rebuild:

- All **Base Set** cards - including the **Ice Premieres** rookie subset - along with the non-mem parallels, are 70 pts. thick with an acetate front and back, and a C2S filler.
- The fronts of the **Sub Zero** cards have been treated with a decorative coating process and are now 60 pts. thick (3-times thicker than previous versions).
- The all-new **Black Ice** and **Black Ice Rookies** cards sport acetate fronts and backs with a black chipboard filler.
- **Glacial Graphs** cards, along with the new **Hand Stamped** and **Fire and Ice** cards, sport a C2S front and back with an acetate filler.
- The plexi lineup has doubled with the addition of **Dry Ice** (to go along with the returning **Exquisite® Crystal** set).

Autograph collectors, rookie card collectors, monster hit seekers and those just simply looking for more high-end cards with a visual wow factor are going to love the reimaged Upper Deck Ice!
